

Forest Schools – Nurturing Nature Safety Rules

Within our Forest School we will try and encourage the children to establish their own ground rules so that they take ownership of any safety restrictions.

Rules and agreed codes of behaviour include:

- We can venture around the school site so long as we stay in sight of a supporting adult.
 - Sticks will be dragged not carried around the site.
 - We will not put fingers or anything else found around the school in our mouths.
- If we find anything that looks unsafe, we will immediately tell Mr Layhe-Humphreys/Miss Parkin.
 - Always wash your hands before eating and drinking
 - Ask an adult if needing the toilet or wanting to use tools.
 - Use walking feet at all times around the school site.
- Always nurture nature. It is alive. When scavenging only use the natural debris on the ground.
